

Contents

- 1 Past and Present 1**
 - 1 Pre-telecommunication 4.0 Era 2
 - 2 Entering the Telecommunication 4.0 Era. 13
- 2 Telecommunication 4.0 Development Pursuit and Vision. 17**
 - 1 The New Maslow’s Model for Communication: Hierarchical Communications Requirements Determine the Telecommunications Development Phase 17
 - 2 Ubiquity of Information Will Meet 3rd Level Need in the Model of Communication Needs. 19
 - 3 Sense Extension Will Meet 4th Level Need in the Model of Communication Needs 21
 - 4 Ubiquity of Intelligence Will Meet 5th Level Needs in the Model of Communication Needs. 24
 - 5 Vision of Telecommunication 4.0 25
- 3 The Main Contents and the Architecture of the Telecommunication 4.0. 27**
 - 1 The New Era—The Advent of the SDN 27
 - 1.1 SDN, Starts with OpenFlow. 29
 - 1.2 SDN Architecture 31
 - 1.3 The Application Scenarios of SDN 33
 - 1.4 Is SDN Mature Now? 36
 - 1.5 Technical Challenges Faced by SDN. 39
 - 2 NFV Opens the New Era of Software and Hardware Decomposition 40
 - 2.1 By Introducing IT, NFV Subverts the Traditional Implementation Mode of CT Devices 42
 - 2.2 Starting from the Concept, Reference Framework Is Gradually Developed for NFV. 45

| | | |
|----------|---|-----------|
| 2.3 | The NFV “Makes Great Achievements” in Various Fields of Communications Networks | 50 |
| 2.4 | The Technology of NFV Flourishing and the Industry Chain Gradually Improving | 54 |
| 2.5 | Still a Long Way to Go: More Progress Should Be Made in NFV Technology | 60 |
| 3 | Telecommunication 4.0 New Network Architecture Based on NFV or SDN | 66 |
| 4 | The Dawn of Telecommunication 4.0. | 73 |
| 1 | Game Brought by Telecommunication 4.0—Deep Integration of CT and IT, Emerging New Leaders | 73 |
| 1.1 | Problems Behind Rapid Development of Traditional CT Ecosystem | 73 |
| 1.2 | Reconstruction of the CT Value Chain: Mutual Penetration Between IT and CT Giants | 76 |
| 1.3 | Integration of IT and CT Is Still Under Exploration | 79 |
| 1.4 | Large-Scale Business Combination and Acquisition for IT and CT | 80 |
| 2 | New Industrial Ecosystem from Telecommunication 4.0: From Closed Industry Value Chain to Open Ecosystem | 82 |
| 2.1 | Changes to the Industrial Ecosystem: Customer Base Expansion in IoE and Diversified and Customized User Requirements. | 82 |
| 2.2 | Ecosystem Competition: Enterprise Competition Becomes Ecosystem Competition, Build Your Own Ecosystem to Defeat Others. | 83 |
| 2.3 | New Transformation Brought by Telecommunication 4.0: Product Operation to Service Operation. | 84 |
| 5 | Telecommunication 4.0 Opens New Mode, New Space and New Development of the Future | 91 |
| 1 | Telecommunication 4.0 & 5G: 1 Plus 1 Is More Than 2 | 91 |
| 1.1 | Overall Vision of 5G. | 91 |
| 1.2 | Main Engine of 5G Development | 93 |
| 1.3 | Telecommunication 4.0 and 5G Complement Each Other to Seek Common Development | 94 |
| 2 | Telecommunication 4.0 and “Internet Plus”: Towards an Unprecedented Future. | 95 |
| 2.1 | “Internet Plus” Explores the Path with Chinese Characteristics in the Third Industrial Revolution | 95 |
| 2.2 | Deep Integration with Social Economic Fields Is the Foundation of the “Internet Plus” New Businesses | 98 |

| | | |
|----------|--|------------|
| 2.3 | Grasp the Features of “Internet Plus” New Businesses, and Promote the Development of the Telecommunication 4.0 System. | 99 |
| 3 | Seize Opportunities, Face Challenges, Transform Actively to Promote the Development of Telecommunication 4.0. | 101 |
| 6 | Telecommunication 4.0: Opportunities and Challenges | 107 |
| 1 | Finding New Dividend in the Era of Telecommunication 4.0 | 107 |
| 1.1 | Looking for Next Dividend | 108 |
| 1.2 | Digitalization Is Indispensable to a Successful Future | 109 |
| 1.3 | Devising Winning Strategies in the Era of Telecommunication 4.0 | 110 |
| 1.4 | Working with China Mobile for Digitization | 111 |
| 2 | The Ongoing Future | 112 |
| 3 | A New Win-Win Solution in the Telecommunication 4.0 Era. | 118 |
| 3.1 | What Will Happen in Our Industry When CT and IT Are Fully Integrated. | 118 |
| 3.2 | NetEase: Our Plan and Technical Preparation for Telecommunication 4.0 Era | 122 |
| 3.3 | Conclusion. | 123 |
| 4 | Intelligent Communications 4.0 in the New Era | 124 |
| 5 | Intelligent Robots Lead the Fourth Industrial Revolution | 126 |
| 5.1 | The Intelligent Service Robot Is the Largest Market | 129 |
| 5.2 | Cloud-Based Intelligent Robots Will Lead the Technological Development of Intelligent Robots | 130 |
| 5.3 | Cloud-Based Intelligent Robots Are the Killer Application of “Ambient Intelligence” in Telecommunication 4.0 | 132 |
| | Conclusion—The Future Has Come | 135 |
| | Afterward | 143 |

Telecommunication 4.0

Reinvention of the Communication Network

Li, Z.

2018, XXIV, 145 p. 54 illus., 26 illus. in color., Hardcover

ISBN: 978-981-10-6300-8
