

Contents

- 1 The International Comparison and Trend Analysis of the Development of MOOCs in Higher Education 1**
 - 1.1 Introduction: ICT, OER, and Higher Education 1
 - Internationalization 1
 - 1.2 MOOC Challenges and Current Status 2
 - 1.3 Research Background and Methodology 3
 - 1.4 Emerging Patterns of International Collaboration Fostered by MOOCs 4
 - 1.5 MOOCs and Complexity 6
 - 1.6 Conclusions 7
 - References 7
- 2 Emergence and Development of MOOCs 11**
 - 2.1 MOOCs and Their Evolution 11
 - 2.1.1 Definition of MOOCs 12
 - 2.1.2 Evolution of MOOCs 13
 - 2.2 International Development of MOOCs 14
 - 2.2.1 History of Development 14
 - 2.2.2 Current Status 16
 - 2.3 Development of MOOCs in China 17
 - 2.3.1 History of Development 17
 - 2.3.2 Current Status 18
 - 2.4 Controversies About MOOCs 21
 - 2.4.1 Pros 21
 - 2.4.2 Cons 22
 - References 24

14	Conclusions of Construction and Development of MOOCs in China	277
14.1	Ten Characteristics of Construction and Development of MOOCs in China	277
14.1.1	Great Support from the Government, Active Participation from Enterprises	277
14.1.2	Breaking Through the Traditional Positioning of MOOCs, Activating the Overall Transformation in Online Education with the Help of MOOCs	278
14.1.3	Diversified Organization Modes, Construction of Proprietary Platforms, and Course Systems of China	279
14.1.4	Systematic Innovations, Promotion of Credit Mutual Recognition Through Development of MOOCs	279
14.1.5	Abundant Choices in MOOCs that Basically Cover All the Disciplines	280
14.1.6	Old Fashioned Teaching Model, In-depth Learning Needs to Be Promoted	281
14.1.7	Strong Learning Willingness of Learners, but Accompanied with Low Completion Rate and Generally, Low Level of Learning Qualities	281

14.1.8	Overall Weakness in Learning Support Services, Lacking in Real-Time and Individualized Support	282
14.1.9	Efforts Have Been Made by Universities to Explore New Models and Organization Modes by Means of MOOCs, but More Work Still Needs to Be Done in Reforms of Higher Education	283
14.1.10	Collaborative Innovation and Modes of Sustainable Development Preliminarily Established	283
14.2	Eight Challenges Faced by Construction and Development of MOOCs in China	284
14.2.1	Supports with Self-Adaptive, Individualized Learning Services	284
14.2.2	Exploration of Business Models	284
14.2.3	Innovations in Technological Application	285
14.2.4	Breakthroughs in “Internet+” Model	285
14.2.5	Innovation in Online Learning Theories	286
14.2.6	Improvement of Autonomous Learning Ability of Learners	286
14.2.7	Improvements Needed in Systems of Quality Assurance and Credit Certification	287
14.2.8	IP Issues of MOOCs to Be Solved	287
14.3	Summary	288
	References	288

The Development of MOOCs in China

Zheng, Q.; Chen, L.; Burgos, D.

2018, XVI, 288 p. 185 illus., Hardcover
