Big Data

Big Data Services Requirements Analysis	3
<i>Affan Yasin, Lin Liu, Zhanqiang Cao, Jianmin Wang, Yingbo Liu, and Tan Sheau Ling</i>	

An Empirical Study of the Software Development Process, Including Its Requirements Engineering, at Very Large Organization: How to Use Data Mining in Such a Study	15
<i>Colin M. Werner and Daniel M. Berry</i>	

Cyber Security

Social Engineering Based Security Requirements Elicitation Model for Advanced Persistent Threats	29
<i>Seung-Jun Kim and Seok-Won Lee</i>	

Eliciting Requirements for Improving Users' Behavior Using Transparency.	41
<i>Haruhiko Kaiya, Nobukazu Yoshioka, Hironori Washizaki, Takao Okubo, Atsuo Hazeyama, Shinpei Ogata, and Takafumi Tanaka</i>	

Comparative Requirements Analysis for the Feasibility of Blockchain for Secure Cloud.	57
<i>Irish Singh and Seok-Won Lee</i>	

A Template for Writing Security Requirements.	73
<i>Massila Kamalrudin, Nuridawati Mustafa, and Safiah Sidek</i>	

A Security Requirements Library for the Development of Internet of Things (IoT) Applications	87
<i>Massila Kamalrudin, Asma Asdayana Ibrahim, and Safiah Sidek</i>	

Crowd-Sourcing

Eliciting Activity Requirements from Crowd Using Genetic Algorithm	99
<i>Chunhui Wang, Wei Zhang, Haiyan Zhao, and Zhi Jin</i>	

Crowd Vigilante: Detecting Sabotage in Crowdsourcing.	114
<i>Muneera Bano and Didar Zowghi</i>	

Requirements Challenges

A Systematic Mapping Study of Empirical Research in GORE	123
<i>Anbreen Javed, Naveed Ikram, and Faiza Ghazanfar</i>	
Challenges in Context-Aware Requirements Modeling: A Systematic Literature Review	140
<i>Yuanbang Li, Rong Peng, and Bangchao Wang</i>	
Issues of Using Function Point Analysis Method for Requirement Changes During Software Development Phase	156
<i>Jalal Shah and Nazri Kama</i>	
Understanding Uncertainty of Software Requirements Engineering: A Systematic Literature Review Protocol	164
<i>Ahmad M. Salih, Mazni Omar, and Azman Yasin</i>	

Automation

Constructing a Goal Model from Requirements Descriptions Based on Extraction Rules	175
<i>Hironori Shimada, Hiroyuki Nakagawa, and Tatsuhiro Tsuchiya</i>	
New Requirements Elicited from Accidents of Train Control System Simulated by Modelica	189
<i>Wen Zhong, Yan Wang, and Xiaohong Chen</i>
