Hi Paul,

Sorry for being late with my first revision. Exhibiting at CeBIT 98 and talking at a conference in Stuttgart has taken quite a lot of my time.

Thank you very much for your comments and suggestions. They have taken me to the first revision of ETHOS (attached as a ZipArchive including an RTF and PostScript file). Please, comment directly in the MS Word file for the next round. From the first pass I 've got the feeling that we will have some more fruitful iterations. Looking forward to your reply.

Best Regards,

Klaus
