Hi Klaus,

back from my conference and sending you the next round of suggestions.
As requested, I've embedded them in the document itself.

Can we agree on one document format to use? I appreciate you taking the trouble to send me doc file, rtf and postscript but I mainly work from home and downloading lots of material over a phone-line is expensive and time-consuming. I have a copy of Word6 but not Word97 (although I'm endeavouring to get a copy) so I have used the RTF version. Do you want to stick to this or do you want to convert to Word6?

Looking forward to seeing the next version,

Paul
