Hi Klaus,

attached is ETHOS3.rtf with further comments embedded. I think this is a much improved paper and the suggestions are probably less challenging than some of the previous ones might have been. As you know from Jens, the date for my recommendation of acceptance is 4th May (next Monday). Could you please let me have your next revision by this Friday (sorry it has taken me so long to get back to you - very busy week this week :-). Just do as much as you can in the time you have, we can still continue shepherding after this first deadline.

BTW, I've taken the liberty of correcting some of the English in the paper. I always feel a bit funny about doing this for a non-English speaker as your English is certainly a lot better than my German :-). I started by adding comments that indicated what needing changing but decided it would save both you and I work if I just made the edits directly. Hope you don't mind.

Cheers,

Paul
