

## Signs and Symptoms Index

### A

- Abasia 286
- Abdominal pain 146, 341, 540, 541, 593–594, 641, 646
- acute attacks 593
  - colicky 611
  - crampy in proximal limbs 600–602
- Abetalipoproteinemia 312
- Abortion 554
- Absent/absence
- development 216, 218, 221
  - of severely retarded development 216
  - head control 220
- Acanthosis nigricans 554
- Acceleration, growth
- accelerated head growth resulting in macrocephaly 218
- Acidemia 369, 370
- Acidosis 63, 170, 173, 176, 198, 200, 233, 251
- Ketoacidosis 197, 200, 312
  - lactic 5, 67
  - MELAS (mitochondrial myopathy, encephalopathy, lactic acidosis, stroke-like episodes) 521, 525
  - metabolic 216, 233, 362
  - renal tubular 63, 310, 315, 342, 362, 423, 437, 641
  - tachypnea 343
- Acne 553, 561
- Acrodermatitis enteropathica 653
- Acroparesthesias 431, 441
- Addison/Addisonian
- pigmentation 372
  - syndrome 496
- Adiposity (doll facies) 343, 344, 348
- Adrenal
- corticosterone methyl oxidase II deficiency 552, 569
  - hyperplasia 551–552
  - congenital (CAH) 551–552, 567
  - lipoid 551, 567, 569
  - hypoplasia 369, 372
  - insufficiency 369, 375
- AERD (Apparent cortisone reductase deficiency) 553
- Aggression/aggressiveness/aggressive behavior 118, 124, 130, 387–389
- impulsive 108
- Akinesia 95
- Alanine transaminase (ALAT) 172
- Alcaptonuria 4
- Aldocorticoid deficiency 369
- Alkalosis 556–557
- hypokalemic 552, 563
- Alopecia 171, 197, 580, 581, 644
- A. totalis 198
- Alveolar ridges, broad 583
- Ambiguous genitalia 552
- Amenorrhea, primary 552
- Amino aciduria 233, 362
- Androgen
- complete and partial androgen insensitivity syndrome (CAIS / PAIS) 554, 562
  - excess 552–553, 558
  - hirsutism and other signs of androgen excess in women only 560
- Androgenism 553
- Anemia 10, 64, 175, 198, 315, 525, 526, 579, 603, 640, 645
- hemolytic 233, 236, 241, 450, 455, 602, 640
  - hypochromic 602
  - macrocytic 250–252
  - megaloblastic 125, 131, 158, 250, 252, 253, 454
  - microcytic 602
- Angina/MI 541–543
- pectoris 621
- Angiokeratoma 403, 436, 441, 443
- Anion gap 170, 198, 200
- Ankle clonus 174
- Anorchia 372
- Anorexia 129, 200, 340, 341, 414, 644
- episodic 216
- Anosmia 497
- Anteverted nares 583
- Aortic
- flow murmur 542
  - valve 377
  - valvulitis 147, 377
- Apathy 644
- Aphasia 177
- Apnea 63, 109, 119, 121, 124, 130, 170, 173, 203, 217
- Arachnodactyly 247
- Arcus corneae 542–544
- Areflexia 170
- Aromatase deficiency 552–553, 569
- Aspartate transaminase (ASAT) 172
- Arrested development 175
- Arrhythmia 645
- ventricular 63
- Arteria/atrial
- ruptures 642
  - tortuous 642
- Arthritis 147, 252, 646
- Arthropathy 579
- Ascites 345, 439, 620, 640, 646
- fetal/neonatal 433

Aspiration pneumonia 109, 119, 121  
 Astasia 286  
 Asterixis 266  
 Ataxia 124, 130, 170, 174, 197, 223, 236, 248, 249, 266, 267, 283, 284, 286, 304, 320, 361, 403, 415, 437, 438, 497, 525–526, 544, 545, 579, 621, 640, 643, 644  
 – episodic 526  
 – NARP (neuropathy, ataxia, retinitis pigmentosa) 525  
 – progressive 222  
 Atherosclerosis, prematur 539  
 Athetosis 267, 640  
 – chorea 94, 111  
 Atrophoderma, follicular 581  
 Attacks, acute 600  
 Attention deficit 318  
 Auricle, abnormal 174  
 Autism/autistic 93  
 – behavior 468, 472  
 – features 63, 453, 456, 468  
 Autophagocytosis, lymphohistiocytic 267  
 Axillary hair, absent 562

## B

Baby  
 – floppy 105  
 – stiff baby syndrome 109  
 BAER, abnormal 496  
 Behavior/behavioral  
 – abnormality 108, 251, 416, 437  
 – aggressive 118, 124, 130  
 – problems 378, 432, 583  
 Birth weights, lower 89  
 Bladder diverticula 642, 643  
 Blepharospasm 647  
 Blindness 175, 282, 424, 432, 495, 526  
 – cortical 526  
 – loss of retinal function 424  
 – night 644  
 Blisters 146, 600–603, 611  
 Blood pressure, diuretic therapy 569  
 Body  
 – or pubic hair  
 – – absent 562  
 – – excessive 552

– unusual body odor 79, 669  
 Bone  
 – age 558, 561–562  
 – bent bones 672  
 – marrow hystiocytes 403  
 – shortening of long bones 495  
 Bowel disease, inflammatory 343  
 Bradycardia 63  
 Bradykinesia 95  
 Brain  
 – atrophy 248, 249  
 – calcification 94  
 – dysplasia 312  
 – hypoplasia 580  
 Breast development, female 562  
 Bronchiolitis 174  
 Bronzing of the skin and gums 369  
 Bruits, carotid/femoral 541–543  
 Burning pain 600

## C

Cabbage-like odor 247  
 CAH (congenital adrenal hyperplasia) 551–552, 567  
 Calcific stippling 496  
 Calvarium, thickened 439  
 Candidiasis 450  
 – oral 450  
 – vaginal 450  
 Cardiac  
 – anomaly/abnormality/failure 284, 316, 344, 497  
 – arrhythmia 63  
 – function 344  
 – hypertrophy 403  
 – malformations 203, 580  
 – muscle 175  
 Cardiomegaly 223, 321, 344, 436, 439  
 Cardiomyopathy 63, 69, 172–174, 176, 216, 217, 222, 236, 310, 311, 315–319, 328, 344, 414, 526, 645  
 – dilated 526  
 – hypertrophic 220, 526  
 Cardioskeletal myopathy 174  
 Cardiovascular disease 244  
 Cataract 125, 131, 339, 340, 436, 438, 494–496, 526, 579, 581, 583, 621, 640  
 – bilateral subcapsular 125, 131  
 – posterior subcapsular 282  
 Celiac disease 312, 326  
 Central nervous system (*see* CNS) 118  
 Cerebellar  
 – ataxia 302, 521, 647  
 – atrophy 414, 579  
 – findings/signs/involve-ments 175, 217, 233  
 – hypoplasia 453, 579, 583  
 Cerebral  
 – atrophy 112, 172, 176, 250, 451  
 – disturbance of cerebral functions 424  
 – edema 172, 176, 266  
 – gyral abnormalities 582  
 – intracerebral hemorrhage 262  
 – palsy 452  
 – progressive cerebral degeneration 642  
 – ventriculomegaly 221  
 – visual failure 223, 441  
 Cervical  
 – compressive myelopathy 581  
 – cord compression 377  
 – lymphadenopathy 176  
 Chest wall deformity 643  
 CHILD syndrome 580, 581  
 Cholelithiasis 224  
 Cholestasis/cholestatic 171, 646  
 – jaundice 267  
 Chondrocalcinosis 641  
 Chorea 107, 112  
 Choreiform movements 248, 249  
 Choreoathetosis 94, 111–112, 124, 130, 174, 201, 222, 223, 286, 452, 647  
 Choroid/choroidal  
 – dystrophy 521  
 – gyrate atrophy 277, 282  
 Cingulate gyrus-agenesis 203  
 Circulatory failure 266  
 Cirrhosis 344, 619, 645  
 – chronic 266  
 – features 345  
 – hepatocellular 147, 266, 344  
 – macronodular 146  
 – micronodular 146  
 CK 173  
 – elevated 63  
 Claudication 541  
 Cleft palate 582, 583  
 – soft tissue 379

- Clinical features 378  
 Clitoromegaly 557  
 Clitoris/clitoral 561  
 – enlargement to penile urethra 558  
 – resembling 561  
 Clubfeet 494, 582, 583  
 Clumsiness 284, 647  
 CNS (Central nervous system)  
 – abnormal MRI (*see also* MRI) 173, 175, 176, 217  
 – depression 370, 375  
 – deteriorations, episodic metabolic 370  
 – symptoms 118, 234, 370, 660  
 Coagulation 266  
 Coagulopathy 146, 583, 640, 645  
 Cognitive deficiency 174  
 Colic 341  
 – colicky abdominal pain 611  
 Colicky 594  
 Colitis 285  
 Column abnormalities 414  
 Coma 63, 130, 170, 171, 173, 266, 310, 315–321, 370, 526, 593, 600–602, 640  
 Complementation analysis 244  
 Conduction abnormalities 526  
 Confusion 252, 370, 593  
 Congestive failure 345  
 Conjunctivitis 197  
 Consciousness, altered 173  
 Contractures 384–386, 391–392, 436, 495, 496, 581  
 Convulsions 124, 129, 130, 156, 176, 319, 414, 497, 621, 642  
 – febrile 217  
 Cornea/corneal  
 – arcus corneae 542–544  
 – clouding 377–379  
 – crystals 423  
 – cysts 425  
 – deposits 544  
 – erosion 146  
 – opacities 384–392, 403, 431, 436  
 – verticillata 436  
 Corpus callosum 124  
 – agenesis 203, 582, 583  
 – atrophy 415  
 Cortical  
 – atrophy 94, 96, 111, 220, 282, 387–389  
 – malformations 124  
 Corticosterone methyl oxidase II deficiency 552, 569  
 Cortisone reductase deficiency, apparent (AERD) 553  
 Cramps 453  
 – abdominal pain, crampy 600–602  
 Craniofacial dysmorphism 417  
 Craniosynostosis 672  
 Crying 174  
 Cryptorchidism 372, 583  
 Crystalluria 454  
 CT/MRI, white matter 217, 222, 494  
 Cushing stigmata 563  
 Cutaneous eruption, periorificial 197  
 Cyanosis 176  
 – cyanotic spells 224  
 Cytolysis 266
- D**  
 DD 342  
 Deafness 175, 223, 377, 453, 494, 495, 497, 526  
 – conductive 285  
 – partial 663  
 – perceptive 526  
 – sensorineural 197, 494  
 Death 340, 342, 344, 345, 369  
 – infant (*see* infant death) 62, 109, 119  
 – – near miss 109, 119  
 – – unexplained 62  
 – unexplained/sudden childhood death 63, 94, 310, 315–319, 321  
 Decerebrate posture 173  
 Decreased vision 250  
 Dehydration 5, 200, 360, 423, 556–559  
 Delusions 266  
 Dementia 175, 251, 403, 432, 436, 496, 621, 647  
 Demyelination 247  
 – Polyneuropathy, demyelinating 417  
 Depression 370, 644  
 – CNS 370  
 Dermatitis 644  
 – monilial 197  
 Deteriorations  
 – CNS, episodic metabolic 370  
 – motor 220  
 – neurologic 252, 436  
 – progressive 662  
 Development/developmental  
 – ataxia 453  
 – delay 107, 111, 112, 118, 197, 215, 223, 248–253, 318, 321, 433, 443, 450, 453, 455, 456, 468, 621  
 – – absence 218  
 – – regression 218  
 – general 469  
 – normal initial 220  
 Diabetes mellitus 521, 526, 645–647  
 – risk of type 2 diabetes mellitus 370  
 Diaphragmatic paresis 173  
 Diarrhea 172, 176, 252, 315, 317, 321, 360, 378, 387–389, 414, 436, 450, 494, 497, 579, 643–644  
 – chronic 416  
 – intractable 645  
 – villous atrophy 526  
 Diplegia, spastic 197, 450  
 Disk generation, lumbo-sacral 147  
 Dislocation of the hip 114  
 Disorientation 252  
 Diurnal  
 – fluctuations of symptoms 95, 96  
 – variation 89, 112  
 Dolichomicrocephaly 642  
 Doll facies (adiposity) 343, 344, 348  
 Drinking, excessive 423  
 Ductus arteriosus, patent 582  
 Dwarfism 379  
 Dysarthria 174, 222–223, 267, 286, 640  
 Dysgenesis 175  
 Dyslipoproteinemias, genetic 537–549  
 Dysmorphic features/dysmorphia/dysmorphism 175, 216, 221–222, 248, 249, 284, 372, 379, 411, 416, 451, 453, 494, 642, 645, 664  
 – facial 203, 223, 409, 416  
 – mildly 379  
 Dysmyelination 173  
 Dysostosis multiplex 384–392, 403, 409, 433, 439  
 Dysphagia 95, 284, 640  
 Dysphasia, expressive 621

Dyspnea 176  
 Dyspraxia 526  
 Dystonia/dystonic 63, 91, 95–96, 111–112, 118, 222, 223, 286, 640, 647  
 – gait 89  
 – hereditary progressive 91

## E

Ectopia lentis 247–249  
 Eczematous rash 93–94, 579  
 Edema 579, 603, 620  
 – cerebral 172, 176, 266  
 – feet 284  
 – hand 284  
 EEG, abnormalities 177, 203, 222, 249–250, 496  
 Elbow mobility, restricted 643  
 Electrolyte imbalance 233, 593  
 EMA-encephalopathy 311  
 Emotional outbursts 174  
 Encephalopathy 63, 640  
 – EMA-encephalopathy 311  
 – episodic 286  
 – infantile 216  
 – MELAS (mitochondrial myopathy, encephalopathy, lactic acidosis, stroke-like episodes) 521, 525  
 – MNGIE (mitochondrial neuropathy, gastrointestinal disorders, encephalopathy) 521, 525  
 – progressive 175  
 Endocardial fibroelastosis 174, 175  
 Endometrium  
 – constantly proliferative 554  
 – external genitalia 562  
 End-organ resistance syndromes 569  
 Epicanthic fold 267, 583  
 Epilepsy/epileptic 217, 223, 361, 415–417, 453, 456, 468, 472, 495, 496, 640  
 – MERRF (myoclonic epilepsy, ragged-red fibers) 521, 525  
 – seizures 220, 469  
 Epiphyses/Epiphyseal  
 – dysplasia 496  
 – early closure of the epiphyses 552  
 – incomplete closure 562

– stippling 583  
 Episodic course 220  
 Epistaxis 640  
 ERG, abnormal 250  
 Erosion 146  
 – corneal 146  
 Erythroderma, ichthyosiform 580, 581  
 Esophageal peristalsis 173  
 Estrogen resistance 554  
 Evoked potential abnormalities 222  
 Excess digital whorls 583  
 Exercise  
 – endurance 346  
 – intolerance 310, 312, 316, 318, 320, 453, 526  
 Exostosis (occipital horn) 643  
 Extrapyramidal signs/dysfunction 96, 173, 217, 220, 251, 472, 526  
 – movement disorder 220, 223, 279  
 Eye movement, restricted 526  
 Eyelid  
 – myoclonia 472  
 – ptosis 472

## F

Face/facial  
 – coarse facial  
 – – appearance 217  
 – – features 384–392, 436, 439, 442  
 – dysfiguration 602  
 – dysmorphism 203, 223, 409, 416, 582  
 – lack of facial expression 662  
 – midface (*see there*) 369, 581  
 – minor facial anomalies 252  
 – myopathy 175  
 – palsy 177  
 – triangular 369  
 – unique 132  
 Facies  
 – dysmorphic 579  
 – unusual 379  
 Fanconi syndrome, renal 362, 423, 521  
 Fasting ketosis 67  
 Fat distribution, abnormal subcutaneous 414  
 Fatigability, easy 526  
 Fatty liver

– deposition in liver 173  
 – fatty infiltration of liver 318  
 – liver of pregnancy, acute 62, 310  
 Febrile  
 – convulsions 222  
 – episodes 176  
 Feeding  
 – difficulty/failure 63, 93, 111, 112, 123, 203, 216, 224, 248–252, 456, 583, 642  
 – poor 170, 318, 672  
 Feet/foot  
 – clubfeet 494, 582, 583  
 – deformity 663  
 – feet/hand edema 284  
 – flat feet 390  
 Feet, abnormal 378  
 Femora, disproportionately affecting 495  
 Fertility 558  
 – decreased 552  
 Fetid breath 247  
 Fever 579  
 – of unknown origin 224  
 Fibrosis 266  
 Finger nails (*see* nails) 580, 641  
 Fish odor 83, 669, 671  
 Flexor spasm 172  
 Floppy baby 105  
 Foamy 403  
 Follicular atrophoderma 581  
 Fontanel, enlarged 494  
 Foot (*see* feet)  
 Fractures  
 – pathological 372  
 – skeletal 642  
 Fragility 601  
 – of hair/trichorrhexis 266  
 – skin 600–603  
 Frontal bossing 581  
 Frontotemporal atrophy 286

## G

Gait disturbances 249, 432  
 – abnormalities 250  
 – ataxic gait 647  
 – dystonic 249  
 Gallbladder  
 – papilloma 437  
 – stones 437

Ganglia  
 – basal ganglia calcifications 252, 468, 472  
 – hyperintense areas in basal ganglia 173  
 Gastroenteritis 177  
 Gastroesophageal reflux (GER) 111, 112, 173, 174  
 Gastrointestinal  
 – disorders, MNGIE (mitochondrial neuropathy, gastrointestinal disorders, encephalopathy) 521, 525  
 – hemorrhage 437  
 Genital/genitalia  
 – ambiguous 552, 553, 557–562, 569, 582, 583  
 – – XY: 560–561  
 – – XX: 558, 561  
 – – various degree 557–558, 560  
 – external genitalia 556–562, 567  
 – hypoplastic 417  
 Genu  
 – recurvatum 437  
 – valgum 247  
 Gibbs 377  
 Gingiva/gingival  
 – hyperplasia 642  
 – nodules 582  
 Gingivitis 284  
 Glaucoma 385, 390–391  
 Gliosis 172  
 Glomerulonephritis 267  
 Glomerulopathy 146  
 Glucocorticoid  
 – deficiency 369, 552  
 – resistance 554  
 – suppressible hyperaldosteronism 552, 569  
 Glucosuria 360–362, 423  
 Glutathionuria 242  
 Gonads/gonadal  
 – dysfunction 646  
 – failure 496  
 – infantile female 556–557  
 – not palpable 567  
 – palpable 567  
 Gout 452, 453  
 Growth  
 – acceleration 129  
 – disturbance/failure 267, 495, 496, 511, 512

– hypersecretion of growth hormone 123  
 – rapid somatic growth 552  
 – retardation (*see there*) 63, 174, 200, 283, 284, 343, 344, 348, 362, 372, 384–386, 392, 403, 423, 526, 552, 558, 583, 645

Rickets 146, 348, 362, 425, 619, 671, 672  
 – hypophosphatemic 423  
 Rigidity 95, 175

## S

Salt  
 – losing/loss 552, 558, 563, 568–569  
 – wasting 554, 569  
 Salt-water homeostasis 569  
 Sanfilippo syndrome 378  
 Scaphocephaly 384  
 Scaphoid head 377  
 Scapulae 377  
 Scarring 602  
 Scleral pigmentaiton 147  
 Scoliosis 95, 174, 247, 456, 581  
 – thoracic 417  
 Scotomas 266  
 Screaming fits 174  
 Segawa disease 91  
 Seizures 63, 64, 93–94, 96, 111, 114, 124, 170, 172, 175, 177, 197, 216, 217, 220–223, 233, 247–252, 266, 267, 284, 285, 315, 316, 318, 319, 321, 340–342, 361, 370, 372, 384–389, 392, 403, 432, 433, 437–439, 456, 472, 473, 494, 526, 593, 600–602  
 – epileptic 220, 469  
 – hypoglycemia 341  
 – intractable 131  
 – major motor 248, 249  
 – myoclonic 93–94  
 – therapy-resistant 249  
 Self biting 452  
 Seminiferous tubule dysgenesis 567  
 Sensorineural deafness 197, 494  
 Sensory disturbances 497  
 Sepsis 146, 340  
 Sex/sexual  
 – assignment 569  
 – differentiation 569  
 – impotence 496  
 – intersex/intersexuality (*see there*) 569–570  
 – lack of sexual development 557  
 – regardless genetic sex 556  
 Shock, hypovolemic 360  
 Short gut syndrome 67

Shortness of stature/small stature/  
 short stature 63, 174, 200, 222, 283, 284, 343, 344, 346–348, 362, 372, 403, 423, 526, 552, 558  
 – retardation growth 63, 174  
 Siblings, symptom-free affected 328  
 SIDS (*see* infant death syndrome) 62–63, 109, 119  
 Skeletal  
 – abnormalities 378, 379, 642  
 – dysplasia 495, 496  
 – fractures 642  
 – malformations 497  
 – maturation  
 – – accelerated 552  
 – – slower 553  
 – muscle 175  
 – polydactyly 583  
 – syndactyly 583  
 – X-ray, skeletal changes 643  
 Skin disease 131, 143, 561  
 – atrophy 646  
 – blisters 146, 600–603, 611  
 – bronzing of skin 369  
 – fragility 600–603  
 – hyperelasticity 131  
 – hyperpigmentation 645  
 – ichthyosiform 580, 646  
 – increased skin elasticity 267  
 – infection 450  
 – lax skin 642, 643  
 – pigmentary skin abnormality 252  
 Sleep  
 – apnea 385  
 – disturbances 266, 378  
 Somatic  
 – development 553, 558  
 – – advanced (both sexes) 558  
 – – delayed 553, 561  
 – rapid somatic growth 552  
 Somatic  
 – liver 397  
 – spleen 397  
 – tissue 397  
 Somnolence/sopor 172, 266, 370  
 – Hypersomnolence 96  
 – Insomnia 174  
 Sound, startle reaction to 403  
 Spasm/spastic/spasticity 95, 130, 215, 220, 222, 223, 233, 267, 284, 286, 497, 526, 642  
 – blepharospasm 647

– diplegia 197, 450  
 – flexor spasm 172  
 – hyperreflexia 283  
 – infantile 216  
 – paraparesis 109, 175, 497, 526  
 – – transient 526  
 – paraplegia 172, 174  
 – paresis 494–496, 621  
 – pyramidal signs spasticity 403, 621  
 – quadriplegia 173, 175, 452, 456  
 – sustained tonic spasm 109, 119  
 – tetraparesis 125, 432, 450  
 – tetraplegia 131, 172, 177, 437, 439, 441  
 Speech difficulty/disturbance 157, 284, 285, 640  
 – delayed speech development 130, 172, 468, 469, 472, 473  
 – nasal quality to speech 175  
 – slurred speech 647  
 Sperm, XY: decreased low sperm count 558  
 Spherophakia 283  
 Sphincter problems 496  
 Spike wave pattern 94  
 Spinal cord compression 390  
 Spleen, somatic 397  
 Splenomegaly 345, 384–386, 391–392, 403, 436, 437, 439, 455, 646  
 Squint 414  
 Startle  
 – disease 109  
 – reaction to sound 403  
 – response 109, 114, 119, 121  
 Stature  
 – shortness/small 63, 174, 200, 222, 283, 284, 343, 344, 346–348, 362, 372, 384–386, 392, 403, 423  
 – tallness 553, 561–562  
 Steatorrhea 619  
 Steatosis, hepatic 267  
 Sternal  
 – bulging 390  
 – deformities 247  
 – protrusion 391  
 Steroid 11 $\beta$ -Hydroxylase deficiency 552  
 Stiffness 345, 346, 377, 379, 641  
 – morning stiffness 641  
 Stomach, volvulus 416  
 Stomatitis 252, 285

Stone diseases, kidney 64, 301, 514  
 Strabismus 203, 372, 403, 415, 454, 526, 583, 640  
 Stress, inability to respond appropriately to stresses 369  
 Striate hypermelanosis 581  
 Stridor 217, 320  
 – inspiratory 224  
 Stroke-like episodes 320  
 – MELAS (mitochondrial myopathy, encephalopathy, lactic acidosis, stroke-like episodes) 521, 525  
 Strokes 414, 436  
 Stupor 369, 370  
 Subdural hematoma 642  
 Subependymal cysts 217, 223  
 Subileus 593, 600–602  
 Sudden death 63, 94, 310, 315–319, 321  
 Sulfur amino acids 243–259  
 Swallowing difficulties 111, 436, 437  
 Sweating, excessive 111, 112, 370  
 Sweaty feet, odour of 171, 320  
 Synophrys 389

## T

T cell immunodeficiency 450, 454  
 Tachycardia 203, 593, 600–602  
 Tachypnea 173, 174, 176, 220, 201, 321, 341, 343  
 – acidosis 343  
 Tallness of stature 553, 561–562  
 Tapeto-retinal degeneration 177  
 Teeth, loss of 672  
 Temperature instability 93–94, 107, 112, 118  
 Tendon  
 – reflexes, deep 544, 545  
 – – reduced 662  
 – xanthomata 621  
 Testes/testis  
 – abdominal 562  
 – inguinal 562  
 – undescended 556–557, 560–561, 642  
 – – XY: 560  
 Tetraparesis, spastic 125, 432, 450  
 Tetraplegia, spastic 131, 172, 177, 437, 439, 441

Thiopurines, treated with 454  
 Thoracic  
 – deformity 379  
 – kyphosis 377  
 – scoliosis 417  
 Thrive, failure to 63, 147, 170, 172, 174, 175, 216, 198, 220, 224, 251–253, 284, 341, 423, 425, 494, 511, 512, 526, 559, 579, 642, 644, 645, 660, 662, 672  
 Thrombocytopenia 10, 125, 131, 142, 171, 172, 198, 251–253, 579, 640  
 Thromboses/thromboembolic/thromboses infarcts 247, 415  
 Thumbs, adducted 125, 131  
 TIA/CVA 542  
 Tinnitus 436  
 Tissue  
 – cleft palate, soft tissue 379  
 – somatic 397  
 Tongue, enlarged 377, 384–386  
 Torticollis 112  
 Transient sharp waves 95  
 Tremor 95, 96, 111, 118, 222, 223, 640, 644  
 Trichomalacia 646  
 Trichorrhexis nodosa/hair fragility 266  
 Trunk/truncal  
 – hypotonia 96, 111, 112  
 – short 379  
 Tubular  
 – acidosis 63, 310, 315, 342, 362, 423, 437, 641  
 – dysfunction 423, 526  
 – proteinuria 424  
 – seminiferous tubule dysgenesis 567  
 Tubulopathy 146, 362

## U

Ulceration, leg 132  
 Unconsciousness 370  
 Unexplained (sudden) childhood death 63, 94, 310, 315–319, 321  
 Unique face 132  
 Unstable 111, 112  
 Uremic hemolytic syndrome 202, 251  
 Ureter, hydroureter 580

Urethra, clitoral enlargement to penile urethra 558  
 Uric acid lithiasis 452, 453  
 Urinary tract infection 65, 303, 511, 512, 643  
 Urolithiasis 301, 303  
 Uropathy, obstructive 303, 454  
 Uterus, absent 562  
 Uvula, bifid 379

## V

Vacuolated lymphocytes 403, 409  
 Vagina/vaginal  
 – blind pouch vagina with micropenis 561  
 – candidiasis 450  
 Valvular thickening 384–392, 403, 436  
 Valvulitis  
 – aortic 147, 377  
 – mitral 147  
 Varicella immunization 267  
 Ventricle/ventricular  
 – arrhythmias 63  
 – enlarged/dilated 217, 223, 248, 249  
 – septal defect 416  
 Ventriculomegaly, cerebral 221, 286, 582  
 VEP, abnormal 496  
 Vertebral abnormalities 203, 580  
 Vessels, tortuous 643  
 Virilization 553–554, 561, 569  
 – post-natal 557  
 – undervirilization 554  
 Visceromegaly 409, 443  
 Vision  
 – decreased 250  
 – loss of 432  
 Visual  
 – failure 221, 223, 442  
 – – cerebral 223  
 – – decreased visual acuity 251  
 – – no visual contact 662  
 – – hallucinations 266  
 – loss 443, 496  
 Visualization, mild 553  
 Vitamin  
 – B<sub>6</sub> deficiency 268  
 – K-responsive bleeding 619, 622

Vomiting 63, 93, 129, 171, 173, 200,  
217, 221, 224, 266, 315, 317–321,  
340, 341, 369, 372, 375, 414, 450,  
593, 600–602, 643  
– episodic 171, 197, 216, 217, 222,  
223, 370, 557, 558  
– pyloric stenosis 643  
– recurrent 63

## W

Walking difficulty 344  
Water-salt homeostasis 569  
Water-sodium disequilibrium 552  
Weakness

– fatigue 646  
– limb 249  
– muscular 146, 282, 319, 320, 328,  
345, 346, 369, 372, 425, 526  
– – myopathy 236  
– – severe, progressive 369  
Weight  
– gain 340  
– loss 646  
White in color 377  
White matter  
– attenuation 131, 173, 176  
– diffuse white matter disease 218  
– hypodensities 286  
– MRI findings/involvement 494

– – indicative of spongiform  
changes in the subcortical white  
matter 217  
*Wilson* disease 653

## X

Xanthine lithiasis 451  
Xanthomas 540–542  
– cutaneous 542  
– eruptive 540, 541  
– palmar 541  
– tendon 542  
– tuberoeruptive 541  
Xerophthalmia 640
