

## Ag – Yb (Silver – Ytterbium)

### Thermodynamics

Ivanov et al. [92 Iva], by isoperibolic calorimetry, have determined partial enthalpies of Yb in liquid alloys. From these data integral enthalpies of liquid alloys have been calculated. The results are plotted in Fig. 1.

**Figure**

**Fig. 1. Ag-Yb.** Experimentally determined enthalpies of mixing of liquid alloys [92 Iva].
