

Chemical substances (or groups)

1. AA of the urea cycle
2. Beta blockers
3. Bile acids
4. BCAA
5. Deferoxamine
6. D-penicillamine
7. Diuretics
8. Glucocorticoids
9. Haemarginate
10. Immunosuppressants
11. Immunostimulants
12. Lactulose
13. Nucleoside analogues
14. S-adenosyl-L-methionine
15. Somatostatin
16. Spironolactone
17. Virustatics
18. Vitamins (A–K)
19. Zinc

Phytotherapeutic agents (or groups)

1. Colchicine
2. Essential phospholipids
3. Glycyrrhizin
4. Silymarin
5. Various herbal preparations
