

1. Anaemia perniciosa
2. Ankylosing spondylitis (279)
3. CREST syndrome (195, 239)
(= calcinosis cutis, Raynaud's phenomenon, oesophageal motility disorder, sclerodactyly, teleangiectasia)
4. Dermatitis herpetiformis (120)
5. Dermatomyositis
6. Glomerulonephritis (210, 243)
7. Grave's disease (219)
8. Haemolytic anaemia
9. IgA deficiency (149)
10. Immunocomplex capillaritis (243)
11. Intestinal manifestations
 - coeliac disease (74, 103, 120, 258)
 - ulcerative colitis (168)
 - jejunal villous atrophy
12. Lichen planus (125)
13. Lupus anticoagulant
14. Lupus erythematosus (135, 147)
15. Lymphadenopathy (105, 110, 192, 229)
16. Mixed collagenosis
17. Myelitis (66, 248)
18. Polymyalgia rheumatica
19. Polymyositis (85)
20. Pulmonary manifestations (91, 259, 282)
 - interstitial pulmonary fibrosis (285)
 - granulomatous lung infiltrates
 - pulmonary infiltrations
 - sarcoidosis (259)
21. Retroperitoneal fibrosis (268)
22. Rheumatoid arthritis (124, 196)
23. Scleroderma (205, 233)
24. Sjögren's syndrome (66, 98, 106, 248, 274, 277)
25. Skin granulomas (150)
26. Teleangiectasia (138)
27. Thrombocytopenia
28. Thyroiditis, hypothyroidism (98, 108)
