

Sonography

1. Single, long-linear or curved echogenic nonshadowing structure
 - without an inner tube (= *stripe sign*)
 - containing either a central anechogenic tube or tubular structure (= *inner tube sign*)
2. Multiple, long linear overlapping echogenic structure (= *spaghetti sign*)

ERC

1. Smooth, long-linear filling defects with tapering ends; mostly dilated common bile duct

CT

1. Bull's eye appearance in postcontrast scans

MRT

1. Linear, hyperintense tubular structure with central hypointense area
2. Linear, hypointense filling defects in massive biliary ascariasis
