

Box 8.1 ED discharge instructions for headache patient

You were just treated for an acute headache episode. You will need to follow up with your primary care provider for ongoing care of your headaches. Please make an appointment to be seen within the next 2 weeks.

You were prescribed a small amount of medication to treat your symptoms if they return:

For nausea

___metoclopramide

___prochlorperazine

___ondansetron

___other_____

For pain

___acetaminophen

___other_____

Contact your primary care provider if additional medication is needed.
